SUMMARY

Hi, I'm Aditya Gupta, a dedicated professional transitioning from database management to software development with expertise in Java, JavaScript, React.js, Node.js and TypeScript. I specialize in full-stack development, and I have a comprehensive approach to building user-centric applications, ensuring efficiency and scalability in software solutions.

EXPERIENCE

Database Executive

Justdial Limited

📅 06/2024 - Present   📍 Sector-16, Noida, India

Justdial Limited is an India-based local search service provider.
- Crafting efficient MySQL queries for data extraction and manipulation.
- Creating compelling visualizations to translate complex datasets into actionable insights.
- Conducted regular audits to ensure data quality and compliance with regulations.
- Regularly updated documentation related to processes, standards, and procedures.

Live-Projects

helloadiitya.netlify.app

📅 12/2024 - Present   📍 Noida, Delhi

90-Day Challenge to Solve Daily Problems Using Advanced Tools and Skills
- Managed a portfolio of 15+ active projects concurrently on Netlify.

EDUCATION

Master of Computer Applications

Arunachal University of Studies (AUS)

📅 07/2023 - 06/2025   📍 AU, India

Bachelor's degree

Makhan Lal Chaturvedi National University of Journalism and Communication

📅 07/2020 - 06/2023   📍 Bhopal, India

Intermediate

Yug Nirman Senior Secondary School

📅 04/2019 - 06/2020   📍 Deoria, India

High School Diploma

Yug Nirman Senior Secondary School

📅 04/2017 - 04/2018   📍 Deoria,India

KEY ACHIEVEMENTS

💎 **Database Optimization Success**
Reduced query execution time by 40% using optimized database indexing.

💎 **Efficiency and Adaptablity**
Skilled in leveraging new tools and AI technologies to enhance accuracy and reduce project timelines.

💎 **15+ Projects Independently**
Successfully completed 15+ projects independently, enhancing personal growth and satisfaction while meeting deadlines effectively.

💎 **Enhanced Problem Visualization**
Improved problem visualization through effective analysis and design, resulting in more accurate and scalable software solutions.

SKILLS

HTML | CSS | bootstrap | Core Java | Javascript | react.js | node.js | Nest.js | Typescript | Data Structures | MySQL | Git | Github | SQL | VPS | MongoDB | Netlify | Data Quality | Adv. AI Tools

HOBBIES AND INTERESTS

⭐ **Passion for Innovation and Problem-Solving**
Enthusiastic about designing and building scalable, user-centric applications that solve real-world problems. Driven by a desire to continuously learn, adapt, and leverage cutting-edge technologies to create impactful software solutions.
